

**PESGUARD™
FG161**

for mosquito and cockroach
Control

Pyrethroid compound
of d-tetramethrin
and cyphenothrin

Ensures rapid knockdown, fast
flushing out and good killing
effect.

**Broad insecticidal
Activities**

Proven effective for the control
of mosquito (*Anedes aegypti*,
Anedes albopictus, *Culex
quinquefasciatus*, *Anopheles
sp.*) and cockroach (*Blattella
germanica*, *Periplaneta
americana*).

Adulticidal property

Essential for the disruption of
Dengue Fever/Dengue
Haemorrhagic Fever
transmission due to transovarial
transmission of dengue virus
in *Anedes* spp.

**Easy handling
formulation**

Suitable for diluting in both
water and diesel for thermal
fogging and ULV application.
Also recommended for residual
spray.
