

# NEW

The sensational new Model 3948 Spin-Mister™ is one of the lightest and most powerful ULV/Mist blowers produced today. It is the ultimate in convenience and efficiency with comfort and ease of operation. The Model 3948 Spin-Mister™ is built to exacting tolerances to achieve superior performance in a variety of applications. The Model 3948 is designed as a dual-purpose sprayer that produces a superior range of droplets sizes from precise ULV to a heavy coarse spray that can accommodate most any spray applications. The versatility of the Model 3948 makes it ideal for controlling many types of pests in a variety of different environments at an affordable price.
