

One Machine That Does It All!

ULV PORTABLE AEROSOL UNIT/VERSAFOAMER COMBO UNIT

Now you can have one piece of equipment that can handle most Pest Control Applications.

FOR COMMERCIAL APPLICATIONS — Use the Portable Aerosol System for general pest control, and then swap out the tank and you have a power foamer, great for drain and fruit fly work.

FOR GENERAL APPLICATIONS — Use the Portable Aerosol System for anything from Bed Bug Applications to crack and crevice work and then swap out the tank and now you have a power foamer, great for foaming wall voids for termite and carpenter ant control or other applications where foaming offers you advantages over conventional sprays.

All this for a price less than a competitive Aerosol System!

The B&G Versafoamer is an easy to use power foamer and can be used in a wide variety of foaming applications. It's made of heavy duty components and designed for years of dependable service.

The B&G ULV Portable Aerosol Unit gives you deep wall void penetration, crack and crevice along with localized fogging capabilities and costs much less than competitive equipment. It has the capability of also doing a liquid only application for crack and crevice work or an air only application for use in a flushing operation.

THE FEATURES OF THE VERSAFOAMER ARE:

- Easy to use, just fill with chemical, water and foaming agent, turn on compressor and you are ready to foam.
- One Gallon Stainless Steel tank with a 7 foot hose and special foaming tip.
- Several tips available including a straight metal tip along with a flexible drain tip.
- Can be used in a wide variety of applications from Commercial Kitchen work to foaming wall voids for Termites and Carpenter Ants.
- Can be removed from case and electrical source for spot treatments.
- Makes great foam every time!

THE COMBINED FEATURES OF THE PORTABLE AEROSOL SYSTEM/VERSAFOAMER ARE:

- One great system, great for many applications.
- Heavy duty carrying case, no worries about damage to the unit while transporting to the job site.
- Extended Life Air Compressor system available in 110V and 220V.
- Easy to switch between Portable Aerosol System and Versafoamer, just turn off compressor, use the quick connect fitting on the air hose to remove the tank, hose and gun from the case. Place the other unit in the case, reconnect the air hose, turn on the compressor and you are ready to go.

THE FEATURES OF THE ULV PORTABLE AEROSOL SYSTEM ARE:

- One Gallon Stainless tank, can be easily removed from case for cleaning or filling.
- Brass and Stainless Steel gun with your choice of 8" or 18" extension.
- 10 foot Recoiling Hose (15 foot on Commercial Units)
- Liquid pressure is adjustable to give you from a heavy mist to ULV fog.
- Unit can be removed from case for spot treatments.
- Many models available, including a commercial version, which features a fan cooled compressor along with a 15 foot hose.
- All units are field repairable, no need to return the unit for service.
- Save 90% on the cost of purchasing Aerosols in a can, just create your own with this Portable Aerosol System.
- Great for all applications, from Bed Bugs to Commercial Kitchens to General Pest Control.
