

## Wall Mounted Insect Light Trap System (Model W-210)

Designed specifically for use in restaurants and dining areas, with the sticky pad well hidden inside the fitting.

Two 10 watts UV light tubes mounted deep inside, with mirror-surface reflector which doubles the amount of UV lights thrown up to attract flies.

Sticky pad is laid flat **ABOVE** the UV light tubes, ensuring a 100% catch with the insects flying straight into the sticky pad **BEFORE** reaching the lamps.

### Specifications:

1. 2 X 10 watts blacklight straight tubes
2. Mirror-finished reflector below light tubes for higher reflected UV aura.
3. Sticky pad size - 12.5 cm (B) x 43 cm (L)
4. Pheromone (Muscalure) added into sticky pads' adhesive to enhance attraction for flies
5. Strong adhesive that 'graps' insects, UV-stabilised that remains stable and sticky for more than 6 months under UV lights.
6. Transparent sticky pads that insects will literally fly straight into.
7. \*Available in Granite Grey, Sky Blue or Biege colors.
8. Uses electronic ballast for lower electricity consumption. ( 220/240 v. )
9. Range: 60 meter square
10. Net weight: 1.0 kg, length: 15.5 cm, width: 20 cm, height; 61 cm, lenght
