

DYNA-FOG®

Mister Max™ Electric Start

Delivers the highest output and maximum power and thrust of any portable Dyna-Fog® applicator.

MISTER MAX™ ELECTRIC START

MISTER MAX™ has the versatility to dispense fungicides, insecticides, germicides and disinfectants as wettable powder, emulsifiable concentrates, flowables or liquids in a variety of applications: greenhouses, warehouses, food processing plants, swine/poultry houses and much more.

With a formulation output of 25 gallons per hour, MISTER MAX™ has power enough to produce small particles and effectively disperse them evenly over large areas for fast, economical and total coverage.

The machine is equipped with an easy to clean stainless steel formulation filter that keeps the system free of unwanted dirt and residue...yet has large enough openings in the filter to enable use of wettable powders and flowables.

MISTER MAX™ also features the Dyna-Fog® patented electric starting system to assure greater reliability, effectiveness and ease of operation.

MISTER MAX™ gives you easy, reliable starts. For fast, economical and total coverage.

A CHOICE OF 3 DIFFERENT POWER SOURCES TO START YOUR MACHINE

- 1 -STANDARD-**
Eight "D" size alkaline batteries.
(mounted in machine)

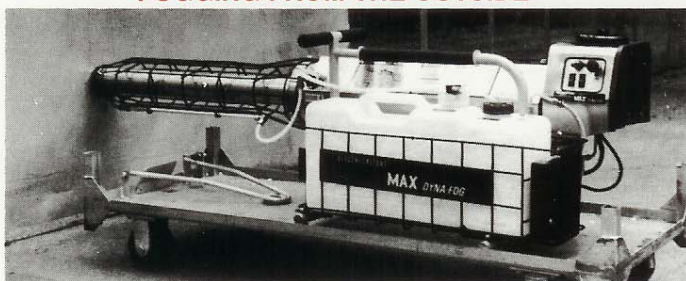

- 2 -STANDARD-**
Connect the auxiliary start battery cable (supplied with machine) to any 12V DC supply such as vehicle cigarette lighter receptacle

- 3 -OPTIONAL EXTRA-**
A portable/rechargeable high energy 12 volt DC battery (charger included with battery).

FOGGING FROM THE OUTSIDE

INTO THE INSIDE...

Through a hole in a wall or doorway allows a contamination free environment to the operator when treating poultry houses or greenhouses with insecticides, fungicides, or disinfectants.
